- Nich was a great instructor during his discussions. I enjoyed coming to discussion every week since he reviewed material very well and gave me help whenever I needed it. He is very enthusiastic and always encourages us to ask questions and ask for help.
- Explained what he was going to be looking for on papers, and helped out by giving us an outline for the papers.
- Nick was an amazing TA! He made everything we learned in class so easy to understand! He really prepared the class for essays and truly wanted every student to succeed. He did a great job!
- was very good at highlighting main points of the week's lecture and providing points that we should look out for on our papers. the only problem was taking attendance since it took up a few more minutes after class was meant to start, but i believe he meant to use it as a way to get to know everyone's names by the end of the quarter which was very considerate and nice of him to do.
- Nick was a very respectable TA. The only thing I would want him to improve on is his ability to manage time better. It seemed like he would stretch out the class to fill the full 50 minutes even if there was no need to. Other than that, he was a very nice guy and effective leader.
- Very good T.A.. Did a good job clarifying lectures and covering the material.
