- Was very kind and always able to provide time to meet in-office hours. Very passionate about the topics and also was tech-savvy- overall a great TA.
- Nicholas was a very helpful and kind TA. His syllabus and class structure was very straightforward and I never felt that I had to ask for questions or clarifications on the material we learned.
- This is one of the best TA's I have had at UCR. He is very interested in our sections, which is great because they're online and hard for me to be really interested in, but i am interested in his sections. He tries hard to get us to understand and he does a very good job at it.
- Nick was great! I had discussion every Monday and I always looked forward to it! During discussions, Nick always made sure we understood the material and always asked if we had any questions. The discussions that we had about the material were really fun and engaging. Nick is very helpful and is very passionate about Political Science. I am very interested in Political Science (it's my major actually) so this class was very fun! Nick was also very approachable and organized. I also appreciated how he urged us to participate in class because when we did, discussions were always great. Overall, Nick did a great job and if I could take this class again, then I definitely would!
- Nicholas was a great TA! He used class time effectively to provide deeper understanding of the lecture material.
