- Being apart of your class was extremely beneficial to me and my understanding of American Politics! I especially loved the discussion questions you created and I would have like if our class participate more so maybe encourage students to turn their cameras on! Overall, your class made this quarter way more bearable.
- I enjoyed being part of his class, and feel like he had a great understanding of the material. He was not afraid to admit when he did not know how to answer a question and would get back.
- I liked the writing activities that we did in groups. This helped out with talking to people even though it was not face to face, I got to speak with people who I have not spoken to before.
- Very nice and polite instructor and made it very clear that if we needed any help, he was there. Easy to talk to, but not that many people spoke during the zoom class, which is normal. Was always interested in making conversations and class enjoyable. Overall helpful and a good ta.
- Nick was such a great TA. I loved his organization and his straight forwardness when it came to class material. I enjoyed the activities and the engagement we had as a class. He was also willing to stop our class time to go over things or materials that we had trouble organizing or understanding. He was amazing overall.
